## The Secret to Our Efficiency

Is really not a secret at all. It's the result of decades of consistent and conscientious improvement in our people, processes and technology. Our exclusive focus on the medical documentation needs of hospitals and physicians has led us to create the most efficient medical transcription platform available. Then, we customize that platform to meet the specific needs of each client's HIM department for even greater efficiencies.

## The Benefits of Outsourcing to Transcend

In an industry filled with choices, Transcend is a proven outsourcing partner. We are the second largest medical transcription services organization in the United States and the first in customer service. By outsourcing your medical transcription to Transcend, you will benefit from:

- Qualified Medical Language Specialists without the need to hire, train or recruit
- Industry leading, guaranteed turnaround times
- Ability to manage fluctuating or increasing transcription volume
- Reduced revenue cycle time with accurate timely documentation
- Reduced capital expense

Whether your needs are 100% outsourcing, weekend or holiday services, or full-scale technology implementation, Transcend will save your organization time and money.

Our clients tell us there's not another company that consistently adds value to their medical documentation. They trust us to be better. You should too.
