

Transcend. Your source for exceptional Pediatric Clinical Documentation Solutions.

As a preferred partner, Transcend provides CHCA members clinical documentation solutions "Like no other team."

Transcend Service's industry leadership position in customer satisfaction, combined with its pediatric-specific CARE certification program and integrated core measures applications, is your assurance of outstanding quality and performance.

Innovative solutions

Transcend's web-based, speech-recognition solutions help CHCA members provide outstanding patient care through secure, timely and accurate clinical documents. Our wide range of clinical documentation and editing services—along with our newest data extraction and reporting tools—encompass everything needed to report patient encounters and drive clinical decision-making.

CARE... A Transcend differentiator

Transcend Medical Language Specialists are certified under our CARE program. As a result of this pediatric-specific training, Transcend is unmatched in providing exceptional quality and turnaround time for medical transcription for "our kids."

BeyondAlerts™ continuously monitors, alerts and reports quality measures to enhance patient care

BeyondAlerts, the new clinical abstraction and alert system from Transcend, is a real-time monitoring system that enables health care organizations to customize, track and trigger alerts against clinical core measures and upload structured clinical data into their EMR system.

Service makes Transcend the best

Transcend Services delivers customized clinical documentation solutions that help your organization improve quality, reduce turnaround times, and control transcription expenses. More than 250 health care organizations nationally have benefited from Transcend's customized solutions and experienced domestic workforce of over 1,900 medical language specialists.

"One of the larger MTSOs, Transcend remains a consistent player. Solid TAT and quality with exceptional customer service at a reasonable cost." – KLAS 2009 Report

We fit your work style

Because Transcend understands that providing timely, accurate information is critical to patient care, we've built a service infrastructure that adapts to your existing processes. Each solution is tailored to your current dictation systems and business requirements, so there is a smooth continuation of operations without the need to change how physicians and staff work.

Consistently best in KLAS

Since KLAS began measuring customer satisfaction within the clinical documentation industry, Transcend has consistently ranked among the top performers every year. Transcend's customers report that the company excels in keeping promises by providing high-quality reports, superior turnaround times and exceptional customer service. As a result, 100% of Transcend's customers are referenceable. Rely on award-winning Transcend Services to provide outstanding value and fast, accurate clinical documentation—on time and on budget.

Transcend CARE certification program

Providing pediatric-specific training for our Medical Language specialists.
